

EPOXY RESIN

DESCRIPTION

Two-component epoxy resin, curable at room temperature, semi-rigid and filled.

The color of the mixture is amber.

SPECIFICATIONS

- For the mechanical protection of LV/MV cable accessories
- Protection against moisture
- For the electrical insulation of LV cable accessories

ADVANTAGES

- Packaged in a ready-to-use dual bag with precise resin/hardener proportions.
- Easy mixing due to the precise resin/hardener proportions.
- Cures even in very humid environments without forming bubbles.
- Approved by EDF.
- After mixing in the dual bag, the remaining product is completely inert.
